Apple Parental Controls Guide

Introduction

This guide is designed to help you put parental controls in place on your child's Apple device. If you need any further support, please do not hesitate to contact Jeff Mason (Curriculum Leader).

Features and Benefits

You can enable restrictions to stop your children from using specific features and applications on an iPhone or iPad, including blocking access to iTunes, restrict explicit content and in-app purchasing. You can also limit access to the camera and sharing of photos

What specific content can I restrict?

Apps Access

Browser Access

In App purchasing

Innapropriate content

Media streaming

Online games

Sharing Data

Sharing location

Social networking

What do I need?

An iPhone or iPad device and account

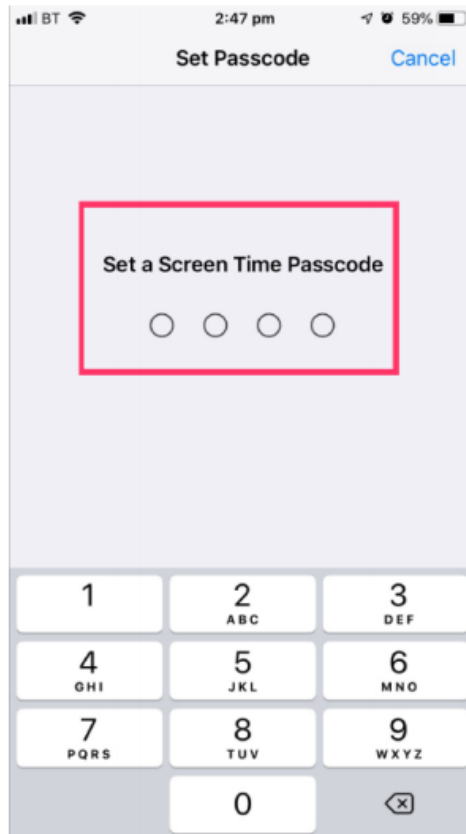

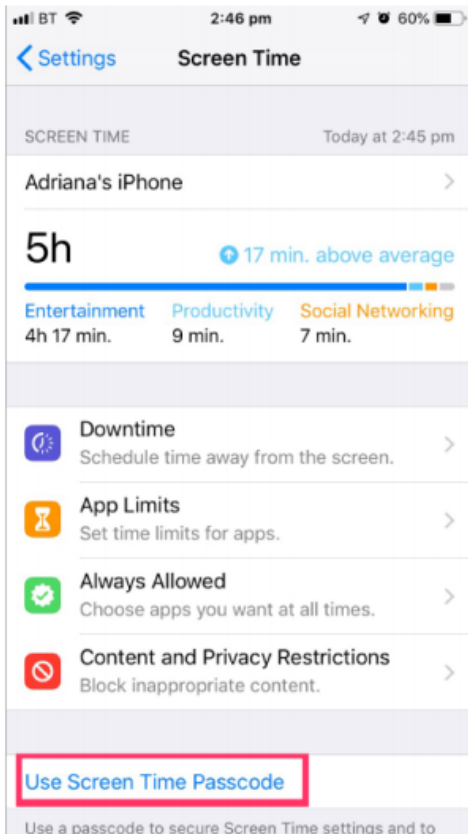

Using Screen Time to set content privacy restrictions and manage in-app purchases Go to Settings and tap Screen Time.

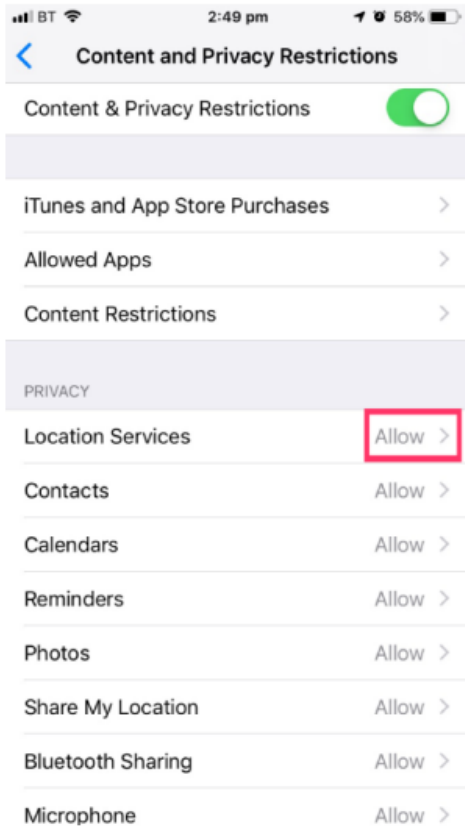

Tap Continue, then choose “This is My [Device]” or “This is My Child’s [Device].” If it’s a shared device and you’d like to ensure settings are not changed then tap Use Screen Time Passcode. Then re-enter the passcode to confirm. If it’s a child’s device, you can follow prompts until you get to Parent Passcode and enter a passcode. Re-enter to confirm.

Tap Content & Privacy Restrictions. If asked, enter your passcode, then you can turn on Content & Privacy. Once you have set up your code, in this section, you can manage in-app purchase, access to apps and automatically filter website content to limit access to adult content in Safari and apps on your device.

Managing in-app purchases in Screen Time Tap iTunes & App Store Purchases. Choose a setting and set to Don't Allow. Please note you can also change your password settings for additional purchases from the iTunes & App Store or Book Store. Follow steps 1-3, then choose Always Require or Don't Require.
